

The Autism Insurance Resource Center is pleased to announce the release of the Autism Insurance Coverage Determination tool: **Am I Covered?** <http://amicovered.disabilityinfo.org>

Am I Covered? is an easy-to-use screening tool, that determines if a person's insurance is subject to the Massachusetts Autism Insurance Law (aka ARICA). It is designed to be used by both professionals and parents. Through a series of simple questions, it determines whether a policy is subject to ARICA.

For policies that are not subject to ARICA, it outlines some of alternatives to obtaining coverage. While the tool describes these, based on our experience, we anticipate that many users will want to contact the Center for information and technical assistance regarding the best approach for their situation. We continue to look forward to assisting providers and families in helping understand and access these alternatives.

This tool was developed by INDEX, a project of The Eunice Kennedy Shriver Center, a division of The University of Massachusetts Medical School, with funding from the Massachusetts Department of Public Health.
