

Nashoba Regional Space Task Force Meeting

February 4, 2016

Attendees: Bob Czekanski, Mark Jones, Lynn Coletti, Jodi Specht, Don Hawkes, Dave LeBlanc, Maureen Busch (arrived 7:35)

Because there was no quorum, the group decided to make the meeting a work group to work on the draft of the final report.

Final Report Draft. The group continued editing the draft report. Dave had provided a copy that included edits in addition to those that Bob had made. In addition, Mark had supplied Bob with a marked up copy with suggestions, questions. Discussion continued on Bob's edits as well as the additional changes from Dave and Mark.

It was noted that there were some inconsistencies in how Critical/Important/Recommended/Desirable were applied to some of the areas, as well as the exact definitions (all students vs most/many/majority). No changes will be made at this time but we will discuss again when we have a quorum to vote.

Next scheduled meeting is Thursday March 3, with a "working group" session February 22 or 23 (depending on availability of people and meeting rooms)
