**Subject: Re: Full day kindergarten for Bolton children**  
**Reply-To:** Jennifer Sbrogna

Hi Lorraine,

I would like to reconfirm my support for the full-day kindergarten class that would potentially commence in the fall of 2014. As I stated before I have 3 small kids and work full-time and really depend on my daughter having a full day of learning. My daughter will be entering her 3rd year of school in the fall and is more than prepared to take on the additional learning and stimulation that occurs during the full-day schedule.

I know there are many other parents in our community who share this opinion and would also be at a loss if the town is unable to open up another full day program. For many of us, that means sending our kids to a private, non-Bolton school system. I would think it would be in the town's best interests to try and keep their kids in the public school system. I also have twin boys who will be entering into Kindergarten in the fall of 2016. If there is no full-day kindergarten by then, I will most likely have to move to another town where this is possible. I hope this proposal is taken very seriously.

Please feel free to share my email at tonight's meeting as I am unable to attend.

Thank you very much,  
Jen Sbrogna
