NASHOBA REGIONAL HIGH SCHOOL FEASIBILITY STUDY

How do we pay for this?

Borrowing

- If the community decides not to construct a new or renovate the old, we will be responsible for the full cost of the borrowing.
 - If the community decides to go forward with the project, the cost will be reduced by the amount of our reimbursement rate.
-

What do we need to do ?

Determine what amount to present to the towns at town meeting in May 2020.

Recommendation:

\$1.5 Million to \$2 Million

What have other districts done?

We have reached out to a number of districts. Though our responses were limited, most would suggest we ask for more and anticipate the costs come in lower.
